

Summary Profile

Detail-oriented Informatics graduate specializing in Machine Learning and Deep Learning, supported by rigorous technical training from Bangkit Academy and AWS re/Start. Demonstrates advanced proficiency in Python, TensorFlow, and PyTorch, complemented by a robust understanding of front-end integration and cloud computing architectures. Professional expertise is definitively validated by Dev Certification Machine Learning with Tensorflow (DCML) and Associate Data Scientist (BNSP) credentials. Dedicated to engineering scalable and highly efficient machine learning pipelines—from initial modeling to cloud deployment—to resolve complex, real-world challenges. Positioned to deliver immediate technical value as a Data Scientist or Machine Learning Engineer.

Education

Universitas Pembangunan Nasional “Veteran” Yogyakarta, Indonesia. 2022–2026
Bachelor of Computer Science. GPA 3.78
Thesis: Minority Class Optimization in Skin Disease Classification Using AC-WGAN with Gradient Penalty-Based Data Augmentation

Experience

Refactory Mar 2026 – May 2026
Full Stack Engineer

- Developed a comprehensive Vendor Portal using React, and .NET, which streamlined procurement workflows and improved communication efficiency by an estimated 30%.
- Integrated Shopee API into the company’s internal ERP system utilizing Supabase and Golang, automating product sync and order management to achieve a 75% reduction in manual data entry errors.
- Architected a dynamic AI Worker project orchestrated via Jenkins, Docker, and Kubernetes, enabling automated version tag revisions for each active worker and establishing a continuous, self-triggering loop that instantly provisions the next task upon completion.

Training/Courses

2026 | AWS re/Start Certification
2025 | PBI Rakamin Academy Certification
2024 | Bangkit Academy led by Google, Goto, and Traveloka Certification
2022 | Dicoding Academy, 33 Certificates (Present) Certification

Certifications/Achievement

Dev Certification for Machine Learning with TensorFlow (DCML), by dev.cert. May 2025|Link
Data Scientist Virtual Internship, ID/X Partners via Rakamin Academy. Sep 2025|Link
Associate Data Scientist, by BNSP Sep 2025|Link
Junior Web Developer, by BNSP. Sep 2024|Link
System Analyst, by BNSP. July 2024|Link
Top 5 Project at Refactory Hackathon UGM. Feb 2026|Link

Skills and Languages

Programming: Python, JavaScript, TypeScript, React, Bash, Node.js, C++, Java
Technologies: TensorFlow, AWS, GCP, Docker, Kubernetes, Grafana, Prometheus, PostgreSQL, Git, Tailwind CSS, Figma
Other: Computer Vision, Deep Learning, Machine Learning, Analytical Thinking, Problem Solving, Team Leadership
Languages: English (TOEFL 537), Bahasa Indonesia

Organization/Volunteer Experience

2024 | Head Staff of Information Media, Tuan Muda Sampakan (Present)
2024 | Media & Documentation Staff, Indonesian Industrial Outlook 2025 National Seminar
2023 | Staff of Web Developer, Information Technology Club (ITC)
